*To the Honorable President and Members of the Common Council, City of Indianapolis:*

Gentlemen:

The report covering the activities of the City Clerk's office for the year 1928 is attached hereto for your information.

You will note that the total amount of traffic fines collected in 1928 was \$21,310, as compared with \$20,748 in 1927 and \$22,253 in 1926. Your attention is directed to that column of the report showing the returns by months, which shows that in April and May of 1928 there was a decided decrease in the traffic fees received, whereas in the previous years these months had always shown an increase, due to an increase in traffic conditions. On June 18th the City Clerk called the attention of the Mayor to this decrease, with the result that the following months the returns showed an increase in fines received.

During the year 1928 there were held by the Common Council twenty-two regular meetings and seventeen special meetings, constituting 1018 pages of printed Council Proceedings, which will shortly be bound and distributed as provided by the rules of the Council.

Respectfully submitted,

WILLIAM A. BOYCE, JR.,

City Clerk.

EXHIBIT A.

*Mr. Edward B. Raub,*

*President of the Common Council,  
of the City of Indianapolis.*

Dear Mr. Raub:

I am submitting to the City Council through you the following relative to the acquirement, improvement and equipment of an aviation field to be managed, operated and maintained as a municipal airport by the City of Indianapolis.

The subject of the municipal airport has been carefully considered by the citizens' committee and different departments of the city government and has now reached a stage where it appears advisable to proceed as outlined and provided by an Act of the General Assembly, Acts 1920, page 160, being Sections 3838-3843 Burns' Revised Statutes, 1926. While this statute gives definite and specific authority to the Common Council to proceed in the matter, it is probably the best and wisest course for us to proceed in conjunction with the Board of Public Works, which is given general authority with respect to the management, operation and maintenance of all public property and improvements. Therefore, it is deemed best that precisely the same action be taken by both the Common Council and the Board of Public Works in the acquirement, improvement and equipment of this airport.

After much consideration the citizens' committee, having in charge the selection of a site, determined that site No. 8 was the best site offered considering price and other considerations, and this selection of site No. 8 in my judgment should be approved. I am herewith submitting the following original options and propositions for your consideration:

Calvin A. Oyler.....	142.68 acres	\$39,000.00
Jot Foltz, et al.....	120 "	38,895.00
H. Oscar Hoffman, et al.....	80. "	26,550.00
James T. Ketrow, et al.....	74.60 "	24,000.00
Alta Fling .....	22.60 "	11,650.00
Albert Fling, et al.....	26.45 "	9,500.00
John Feller .....	5.66 "	6,402.00

C. H. Pierson, et al.....	40	"	12,240.00
John Van Buskirk, et al.....	10.51	"	4,200.00
Raymond Sanders, et al.....	40	"	10,500.00
William McCuen, et al.....	40	"	8,000.00
Edwin King, et al.....	80	"	16,000.00
Maggie Brockelman, et al.....	18.92	"	6,398.00
W. I. Hoag .....	18.56	"	10,000.00
Farmers Trust Company.....	57	"	27,000.00
Total .....			776.99 acres \$251,335.00

In addition to the above regular options given by the several owners to L. J. McMaster Realty Company, I further submit that the Granite Improvement Company, which owns 184 acres in the northeast corner of the tract, is willing to dispose of this entire tract at \$35,000.00. One 40-acre tract involved in the site is in the hands of Albert Hoffman, trustee for Marion E. B. Dunn, and this 40 acres may be purchased through proper court proceeding for a price comparatively the same as the other adjoining lands, which is substantially \$200.00 per acre.

The above options and propositions make a total acreage of substantially 1,000.99 acres at a cost based upon options of substantially \$249,335.00, or an average of \$294.04 per acre.

I wish to further suggest that it is not necessary that the 57 acres belonging to the Farmers Trust Company be acquired. The tract as it stands is expensive and is not necessary in order to obtain an entrance from the National Road. The fact is the High School road and other roads provide a means of accessibility to the east end of the site and in view of the high price of the Farmers Trust Company tract, it is my judgment that the option should not be accepted. This will not only lessen the total cost \$27,000.00, but will also lessen the average price per acre on the entire tract. Should it be necessary in the future—and it probably will be—to have an entrance from the National Road across the Pennsylvania Railroad and the traction line, I feel reasonably sure such entrance can be acquired at much less expense than it can now be acquired through purchase of the Farmers Trust Company land, and in the meantime the other roads are available for entrance.

The options submitted disclose that substantially 304 acres is obtained at a less average price than \$200.00 per acre, which does not include the Hoffman trustee, 40 acres, which should be purchased for not exceeding \$200.00 per acre. It is further disclosed that 182 acres additional is optioned at an average of \$258.00 an acre. This will include 526 acres, or more than one-half of the tract at what appears to be a very reasonable average price per acre.

There are certain of these tracts covered by option that investigation will disclose are reasonably priced, although apparently have a high average price per acre. This is due to improvements and other considerations. However, some of the acreage involved is priced higher in the option than they are reasonably worth and before the options are accepted on these tracts an effort should be made for reduction. Some reductions have already been obtained through the effort of

Messrs. Walter Johnson and Boyd Templeton, who have assisted the Mayor considerably in obtaining reductions and in giving advice as to values. I feel reasonably certain that if the owners of these tracts will give consideration to the public purpose for which the land is sought and especially consider the very low price fixed by the owners of more than one-half of the acreage sought, that a substantial reduction of their options will be obtained. A plat of the entire site, showing acreage and option price, will disclose the comparative inequality in the prices.

Proceeding under the above statute it is necessary for your Honorable Body to formulate a general plan of the improvements intended to be made; procure an estimate of costs and cause plats to be made of the entire site with location of proposed improvements, and cause copies of the same to be placed and kept for inspection, as required by the statute, and give notice by publication in a newspaper of general circulation in the city by three insertions, a week apart; that not less than four weeks after the third insertion the acquisition and improvement will be finally determined and proceeded with.

I wish to state that the office of the City Engineer is now ready to aid and assist the Council and the Board of Public Works in the making of the plats and in the general plan of the improvements intended to be made and also submit an estimate of the cost thereof.

The equipment committee, of which Mr. A. M. Glossbrenner is chairman, at a recent meeting considered the reasonable cost of conditioning and equipping site No. 8 and this investigation disclosed that it will cost at least in the neighborhood of \$350,000.00 to \$375,000.00. I am of the opinion that the expense in connection with the acquirement of the real estate will be approximately \$300,000.00. It may be a few thousand dollars less. There should be a very substantial and creditable administration building and at least two hangars built by the city. The city will have to stand the expense of conditioning, including hard surface runways, driveways and walks, appropriate modern lighting system and the best possible drainage, as well as some enclosure of the site and construction of entrance. In my opinion, roughly estimating this expenditure, it will amount to at least \$680,000.00, which is in excess of one-tenth of one percent of the total taxables of the City of Indianapolis.

I feel that your Honorable Body can find without much trouble that a bond issue of an amount equal to or in excess of one-tenth of one percent of the taxable property of the city is necessary in order to acquire, improve and equip this municipal airport.

With this information laid before your Honorable Body, I feel that you are prepared to take the first steps required by the statute and would suggest that some form of resolution be introduced and passed either in general terms approving this communication or specifically stating that it is advisable and necessary to acquire, improve and equip an aviation field as a municipal airport, and that site No. 8 is selected and adopted as such field, and second, directing the City Engineer to prepare plats of such optioned tract and estimated cost thereof, and

cause the same to be filed in the various offices and places required by the statute and to give the required notice as outlined by the statute.

Very truly yours,

L. ERT SLACK,

Mayor.

I am submitting to the City Council through you the following

relative to the acquirement, improvement and equipment of an aviation field to be managed, operated and maintained as a municipal airport by the City of Indianapolis.

The subject of the municipal airport has been carefully considered by the citizens committee and different departments of the city government and has now reached a stage where it appears advisable to proceed as outlined and provided by an Act of the General Assembly, Acts 1920, page 160, being Sections 3838-3843 Burns Revised Statutes 1926. While this statute gives definite and specific authority to the Common Council to proceed in the matter, it is probably the best and wisest course for us to proceed in conjunction with the Board of Public Works, which is given general authority with respect to the management, operation and maintenance of all public property and improvements. Therefore, it is deemed best that precisely the same action be taken by both the Common Council and the Board of Public Works in the acquirement, improvements and equipment of this airport.

After much consideration the citizens committee, having in charge the selection of a site, determined that Site No. 8 was the best site offered considering price and other considerations, and this selection of Site No. 8 in my judgment should be approved. I am herewith submitting the following original options and propositions for your consideration:

Calvin A. Oyler .....	142.68	acres	\$ 39,000.00
Jot Folt, et al. ....	120	"	38,895.00
H. Oscar Hoffman, et al. ....	80	"	26,550.00
James T. Ketrow, et al. ....	74.80	"	24,000.00
Alta Fling .....	22.60	"	11,650.00
Albert Fling, et al. ....	26.45	"	9,500.00
John Feller .....	5.66	"	6,402.00
C. H. Pierson, et al. ....	40	"	12,240.00
John Van Buskirk, et al. ....	10.51	"	4,200.00
Raymond Sanders, et al. ....	40	"	10,500.00
William McCuen, et al. ....	40	"	8,000.00
Edwin King, et al. ....	80	"	16,000.00
Maggie Brockelman, et al. ....	18.92	"	6,398.00
W. I. Hoag .....	18.56	"	10,000.00
Farmers Trust Company. ....	57	"	27,000.00
	776.99	"	\$251,335.00

In addition to the above regular options given by the several owners to L. J. McMaster Company, I further submit that the Granite Improvement Company, which owns 184 acres in the northwest corner of the tract is willing to dispose of this entire tract at \$35,000.00. One 40 acre tract involved in the site is in the hands of Albert Hoffman, trustee for Marion E. B. Dunn, and this 40 acres may be purchased through proper court proceedings for a price comparatively the same as the other adjoining lands which is substantially \$200.00 per acre.

The above options and propositions make a total acreage of substantially 1000.99 acres at a cost based upon options of substantially \$249,335.00, or an average of \$294.04 per acre.

I wish to further suggest that it is not necessary that the 57 acres belonging to the Farmers Trust Company be acquired. The tract as it stands is expensive and is not necessary in order to obtain an entrance from the National Road. The fact is the High School road and other roads provide a means of accessibility to the east end of the site and in view of the high price of the Farmers Trust Company tract, it is my judgment that the option should not be accepted. This will not only lessen the total cost \$27,000.00, but will also lessen the average price per acre on the entire tract. Should it be necessary in the future—and it probably will be—to have an entrance from the National Road across the Pennsylvania Railroad and the traction line, I feel reasonably sure such an entrance can be acquired at much less expenses than it can now be acquired through purchase of the Farmers Trust Company land, and in the meantime the other roads are available for entrance.

The options submitted disclose that substantially 304 acres is obtained at a less average price than \$300.00 per acre, which does not include the Hoffman trustee 40 acres, which should be purchased for not exceeding \$200.00 per acre. It is further disclosed that 182 acres additional is optioned at an average of \$258.00 an acre. This will include 526 acres, or more than one-half of the tract at what appears to be a very reasonable average price per acre.

There are certain of these tracts covered by option that investigation will disclose are reasonably priced although apparently have a high average price per acre. This is due to improvements and other considerations. However, some of the acreage involved is priced higher in the option than they are reasonably worth and before the options are accepted on these tracts an effort should be made for reduction. Some reductions have already been obtained through the effort of Messrs. Walter Johnson and Boyd Templeton who have assisted the Mayor considerably in obtaining reductions and in giving advice as to values. I feel reasonably certain that if the owners of these tracts will give consideration to the public purpose for which the land is sought and especially consider the very low price fixed by the owners of more than one-half of the acreage sought, that a substantial reduction of their options will be obtained. A plat of the entire site showing acreage and option price will disclose the comparative inequality in the prices.

Proceeding under the above statute it is necessary for your Honorable Body to formulate a general plan of the improvements intended to be made; procure an estimate of costs and cause plats to be made of the entire site with location of proposed improvements, and cause copies of the same to be placed and kept for inspection as required by the statute, and give notice by publication in a newspaper of general circulation in the city by three insertions a week apart; that not less than four weeks after the third insertion the acquisition and improvement will be finally determined and proceeded with.

I wish to state that the office of the City Engineer is now ready to aid and assist the Council and the Board of Public Works in the making of the plats and in the general plan of the improvements intended to be made and also submit an estimate of the cost thereof.

The equipment committee, of which Mr. A. M. Glossbrenner is chairman, at a recent meeting considered the reasonable cost of con-

ditioning and equipping Site No. 8 and this investigation disclosed that it will cost at least in the neighborhood of \$350,000.00 to \$375,000.00. I am of the opinion that the expense in connection with the acquirement of the real estate will be approximately \$300,000.00. It may be a few thousand dollars less. There should be a very substantial and creditable administration building and at least two hangars built by the city. The city will have to stand the expense of conditioning, including hard surface runways, driveways and walks, appropriate modern lighting system and the best possible drainage, as well as some enclosure of the site and construction of entrance. In my opinion, roughly estimating this expenditure, it will amount to at least \$680,000.00 which is in excess of one-tenth of one percent of the total taxables of the City of Indianapolis.

I feel that your Honorable Body can find without much trouble that a bond issue of an amount equal to or in excess of one-tenth of one percent of the taxable property of the city is necessary in order to acquire, improve and equip this municipal airport.

With this information before your Honorable Body, I feel that you are prepared to take the first steps required by the statute and would suggest that some form of resolution be introduced and passed either in general terms approving this communication or specifically stating that it is advisable and necessary to acquire, improve and equip an aviation field as a municipal airport and that Site No. 8 is selected and adopted as such field, and second, directing the City Engineer to prepare plats of such optioned tract and estimated cost of each tract, together with general plan of improvements and estimated cost thereof, and cause the same to be filed in the various offices and places required by the statute and to give the required notice as outlined by the statute.

Very truly yours,

L. ERT SLACK,

MAYOR.

City Hall.*

Dear Mr. Holt:

The Board of Public Works requests that you have an ordinance prepared providing for the transfer of \$15,000.00 out of Board of Works Other Contractual No. 26 into Board of Works No. 22, Heat, Light, Power and Water, and submit the same to the Common Council at their next meeting with the recommendation of the Board of Works that the same be passed.

For your own information, and also, the Common Council I might add that this transfer is requested due to the fact that the contract with the Welsbach Street Lighting Company for the maintenance of gas lights has expired, and that said sum of \$15,000.00 sought to be transferred was the amount allowed therefor. This will assist in the payment of the bills for the additional electric current occasioned by the installation of electric lights to replace the gas lights.

Yours very truly,

DEPARTMENT OF INSPECTION AND SUPERVISION  
OF PUBLIC BUILDINGS OF INDIANA  
STATE BOARD OF ACCOUNTS

LAWRENCE F. ORR  
State Examiner

Indianapolis, January 31, 1929.

*Oren S. Hack, Corporation Counsel, Indianapolis, Indiana.*

Dear Sir:

On January 18th, 1929, you submitted to this department a question concerning the budget law as it applies to the Board of Health, the Park Board and the Sanitary Board. With your letter was a copy of statement, facts and memorandum submitted to you by attorneys for Board of Health and Board of Park Commissioners, respectively.

All of this was by us submitted to the Attorney General for his opinion and we enclose herewith a copy of his reply to us.

Very truly yours,

(Signed) LAWRENCE F. ORR,

State Examiner.

January 31, 1929.

*Mr. Lawrence F. Orr, State Examiner, Indianapolis,  
Indiana.*

Dear Sir:

I have before me your letter of January 21st, 1929, asking for an interpretation of the provisions of the budget law as it affects the oper-

ation of the Board of Health, the Park Board and the Sanitary Board of the City of Indianapolis. The special question has to do with the power of these respective boards, after the establishment of the levy pursuant to the provisions of Section 200 of the Act of 1919 concerning taxation (Acts 1919, p. 198 et seq.), as said section was amended in 1921 and thereafter in 1927—with the power of said boards to increase the compensation of employees above that set out in the budget and pursuant to which the levy was made.

Submitted with your letter is the letter of the corporation counsel for the City of Indianapolis of January 18, 1929, also the letter of the attorneys for the Board of Health for the City of Indianapolis, and for the Board of Park Commissioners.

An examination of Section 200, supra, as amended in 1921 reveals the following:

"The several tax levies shall be established by the proper legal officers of any municipal corporation after the formulation and publication by them of a budget on forms prescribed by the State Board of Accounts **showing in detail** the money proposed to be expended during the succeeding year, the valuation of all taxable property within the jurisdiction and the rate of taxation which it is proposed to establish, and after a public hearing within the jurisdiction at which any taxpayer shall have a right to be heard thereon."

This section of the statute was further amended in 1927 (Acts 1927, p. 247). The 1927 amendment contains among other things the above quoted part of the section with immaterial variations and in addition, among others, the following important provisions:

"When such State Board of Tax Commissioners in its order shall order a reduction in the levy it shall indicate the item **or items** in the budget affected by such reduction, and the budget as set out by the municipal officers in the published statement or as modified on hearing by the State Board shall **limit the expenditure** for the year, except in cases of casualty or accident or extraordinary emergency."

The amended section then proceeds to set out the procedure to be followed in case of an extraordinary emergency, which is not important in the consideration of this particular question.

The amended section also contains the following provision:

"Any officer or officers of any municipal corporation having authority by law to make appropriations for the expenditure of public money, who shall appropriate any money for any item set forth in the published budget, or for any item as modified on the order of the State Board of Tax Commissioners, in excess of the amount estimated to be expended in such budget, or in excess of any addition expenditures without having first given notice to the taxpayers and allowing taxpayers the right to appeal to the State Board of Tax Commissioners, as herein provided, shall be guilty of malfeasance in office and shall be liable to such municipal corporation in the amount of such

excess so appropriated, together with the costs of said action and reasonable attorney fees with a penalty of 25 per cent, etc."

It will be noted that the above section of the act contemplates the formulation and publication of a budget on forms showing "in detail the money proposed to be expended." When the question shall be presented to the State Tax Board upon petition and the State Tax Board orders a reduction, the State Tax Board is required to "indicate the item or items in the budget affected by such reduction." It is made malfeasance in office for an officer of a municipal corporation who is authorized to make appropriations to appropriate any money for any item set forth in the published budget in excess of the amounts estimated to be expended in such budget. It seems to me that the intent is very obvious, namely, to limit the expenditure for any item strictly to the amounts in the published budget upon which the levy was based.

The only question remaining for consideration, if I am correct, in this conclusion, is as to whether the act of 1927 can be construed with previous acts relating to the establishment of Park Boards and Boards of Sanitary Commissioners so as to leave unimpaired provisions contained in such acts generally speaking to the effect that funds derived from taxation pursuant to such acts are to be under the exclusive control of such boards?

It is a general rule of statutory construction that when a section of an act is amended such amendment has a prospective operation from the time it went into force just as if it were written bodily into the original act. It seems to me, therefore, that so far as this particular provision is concerned it can not be construed simply as an independent piece of legislation but must be construed as a part of the general scheme relating to taxation and public expenditures. Viewed in this manner it seems to me that it does not leave such general provisions as above referred to unimpaired. It is my opinion, therefore, that the boards above referred to are limited to the amounts specified in the published budget upon which the levies were made, and that the various items of expenditures can not be intermingled or shifted from one item to another under the law as it now exists.

Very respectfully,

(Signed) JAMES M. OGDEN,

Attorney General.

## COMMUNICATIONS FROM THE MAYOR

April 11, 1929.

*Dr. E. E. Jackson, President, and Members of the Board of Health.*

Gentlemen:

With respect to the plans for the much needed improvement and enlargement of the City Hospital, I wish to call attention to the situation as it is presented.

In the first place, there is no doubt about the need for a larger hospitalization equipment, including an adequate power plant and out-patient building and the enlargement of the ward facilities, thus increasing the bed capacity. This program is a positive necessity for the care and treatment of those who need public hospital attention.

The entire plan submitted at this office the other day by Dr. Parnell, Director, and approved by your Board, involved the following, including estimates:

Power plant .....	\$530,000.00
Out-patient (5 stories) .....	614,000.00
Ward unit (6 stories—432 beds) .....	1,044,000.00
Total .....	\$2,188,000.00

With laundry estimated at \$75,000.00 and the garage at \$35,000.00, the total would be \$2,298,000.00.

I observe that your Board has made recommendation modifying this plan to the extent as follows:

Out-patient (4 stories) .....	\$516,000.00
Ward unit (4 stories—288 beds) .....	875,000.00

You have also omitted the laundry and garage. Your modified plan, including power plant, involves a total estimate of \$1,921,000.00, as against a total estimate of the entire plan of \$2,298,000.00. This modification eliminates from the program two stories of ward unit, one story of out-patient and the laundry and garage, with a reduction of only \$377,000.00.

The entire cost, including retirement of bonded indebtedness and interest for a period of thirty year serial bonds under the modified plan proposed by your Board, would be \$3,266,307.50. The entire plan proposed by Dr. Parnell and your Board at the conference recently, on a basis of thirty year serial bonds would amount to \$3,905,265.00, or an increase of \$638,957.50. This last sum is an additional cost of principal,

retirement and interest covering a period of thirty years, which amounts to \$.095 tax levy over a period of thirty years based on present day valuation.

The first year's cost of the entire plan is \$178,855.00 and under the modified plan \$149,475.00. The increase under the entire plan only amounts to an increase tax levy of four and one-third mills. The increase of cost for the twenty-ninth year is only an increased tax levy of one and one-half mills.

According to the above figures, I fail to see how it is good business or economy to proceed under the modified plan as compared to the entire plan.

There are also other important considerations. If a four-story out-patient building costs \$516,000.00 and a five-story out-patient building costs \$614,000.00, it is easy to see the importance of additional story as a matter of public economy, since it is a well-known fact that an additional story is really needed. The figures are plainly evident as to the ward building. The modified plan involving a four-story building with 288 beds costs on an average of \$218,750.00 per story; a six-story building costs on an average of \$174,000.00 per story, and it is to be considered that the two stories and stories between the roof and the foundation, which means that the average is still further in favor of the addition of two stories, since the roof and basement add to the total cost. By cutting the plan down from a six-story building costing \$1,044,000.00 to a four-story building costing \$875,000.00, you only save a total expenditure of \$169,000.00 and lose two stories of the structure, and you also lose 144 beds.

Now, if it were not well known that this additional bed capacity is needed, or will be needed in the immediate future, perhaps the modified plan as to the ward unit building could be proceeded with, but I cannot see how we should limit a plan where the average cost of stories is \$44,750.00 less the entire plan from that under the modified plan and where the entire plan only exceeds the modified plan \$169,000.00, which makes an average story cost of \$84,500.00 as against an average cost of \$218,750.00 under the modified plan. Besides to obtain a bed capacity of 288 you are expending \$875,000.00, or an average cost of a little more than \$3,000.00 per bed; whereas, you can obtain a bed capacity of 432 at an average cost of a little more than \$2,400.00 under the entire plan.

Now as to the increased cost of maintenance and operation of the entire plan over the modified plan, which will of course add to the budget when the unit is completed ready for use, we may call your attention to the fact that there will be an increased budget of perhaps \$300,000.00 per year. This increase will largely be met by the increase of taxables in the City of Indianapolis and, if so, will not increase the tax levy to any appreciable extent.

In view of these conditions I am, therefore, of the opinion that the plan first submitted by Dr. Parnell is the best from every standpoint. While I am certain we must take into consideration the present bond market and, therefore, should not just now put out a bond issue for the entire program, I feel that the bond issue as to the power plant should be provided for and if there is a reasonable market for bonds of the power plant in the amount of \$530,000.00, then I am disposed to imme-

diately proceed with the entire program and provide bond issues for the same. The sale of the power plant bonds will be a sufficient test.

As stated to you and the members of the Council present at the conference in this office a few days ago, the present program as outlined by Dr. Parnell, and as laid out by the three firms of architects and as approved by your Board at that time, is a program in which there is nothing but honesty and good faith. I know the citizens of this city can rely upon the proposition being entirely free of any form of extravagance or other undesirable conditions. The entire program is commensurate with the needs of the city and in fact will complete a City Hospital for Indianapolis that will rank with any similar institution.

My desire is to proceed with this plan in its entirety and to have it under contract during this year of 1929, because it is entirely free of all undesirable conditions and can be completely constructed at a dollar of value to the city for every dollar of expense to the city.

As a concluding suggestion, and to some extent a modification of the above statements, I believe you will agree that the first thing is, of course, the power house. Then, it might be well to proceed as soon as possible if the bond market warrants further bond issues, with the out-patient building, because it can be constructed without interfering with the present condemned and inadequate structures of the hospital. Of course, the ward unit building cannot be proceeded with to a good advantage immediately and that might wait some months later for a bond issue covering that building.

However, my above first statements in regard to completing contracts for construction during this year still stands as made.

I have the honor to be,

Very respectfully,

L. ERT SLACK,

Mayor.

THAT WHEREAS, this Board on the 24th day of September, 1923, passed a resolution to the effect that an emergency exists at the City Hospital on account of the State Fire Marshal having theretofore condemned the old hospital building, and on account of inadequate and insufficient accommodations for the proper care and treatment of the indigent sick of the City of Indianapolis, to such an extent that it was deemed necessary to construct certain buildings and additions at said City Hospital, and

WHEREAS, this Board by its said resolution declared that it would be for the best interests of the City of Indianapolis and its inhabitants that a Hospital Consultant be employed to advise with this Board and its architects and engineers in said contemplated construction program, and

WHEREAS, the Common Council of the City of Indianapolis, pursuant to said resolution of this Board and in compliance with the request of this Board, did, on the first day of October, 1928, pass General Ordinance No. 68, for the purpose of procuring to this Board certain funds with which to employ and pay a Hospital Consultant, architects and engineers for the furtherance of said contemplated construction program, and

WHEREAS, this Board, pursuant to said General Ordinance No. 68 did, on the 3rd day of December, 1928, enter into a contract with one Christopher G. Parnell, of Rochester, New York, as Hospital Consultant, to make a survey of the needs and requirements of said City Hospital

WHEREAS, said Board, after being duly advised, is of the opinion that the cost of such power plant, tunnels, equipment, connections and alterations necessary to make said power plant efficient and useful for the purposes intended, and to pay for additional architect's fees for completing plans and specifications and to supervise construction of said improvements will be approximately Five Hundred Thirty Thousand (\$530,000.00) Dollars, and

WHEREAS, there is not now, and will not be, sufficient money in the funds of the Board of Health of the City of Indianapolis with which to meet the aforesaid expenditures of money for the purposes aforesaid, and it being necessary for said city to borrow the sum of Five Hundred Thirty Thousand (\$30,000.00) Dollars, and to issue and sell bonds for that amount;

mitted to this Board therefor by the aforementioned architect and the aforementioned engineer; also providing for additional architect and engineer fees necessary for the completion of the aforementioned plans and specifications and the proper supervision of the construction and equipping of said power plant and other improvements as aforesaid, and

WHEREAS, it is, by the Common Council of the City of Indianapolis, Indiana, deemed necessary and proper and for the best interest of the City of Indianapolis and its inhabitants to improve and better the conditions with reference to the proper and adequate health protection of the said city and its inhabitants, and

WHEREAS, for said purposes it is deemed necessary and advisable to build and equip a modern power plant, distributing system, tunnels and connections on the said Hospital grounds, and to make necessary alterations and additions in the electric light, power, steam and water systems in the present buildings on said grounds so as to connect said buildings with the new distributing system; and also to pay additional architect's and engineer's fees for plans and specifications for said improvements and the proper supervision of said construction and installation of said equipment, and

WHEREAS, there are not now and will not be sufficient funds in the treasury of said city with which to accomplish the purposes aforesaid, and it will be necessary for the City of Indianapolis to borrow for said purposes the sum of Five Hundred Thirty Thousand (\$530,000.00) Dollars, and to provide for and secure the repayment thereof, and to evidence said indebtedness, to issue and sell its bonds in said amount, payable from the general funds or from the sinking fund of said city, or as may be required by law: Therefore

Section 2. The City Controller shall, as soon as practicable after the passage of this ordinance, and after the publication of the notice of the herein determination to issue such bonds as provided in Section Eight (8) hereof, advertise for bids or proposals for said bonds by at least One (1) insertion each week for two (2) weeks in two (2) daily newspapers of general circulation, printed and published in the City of Indianapolis, Indiana, and may advertise for such bids or proposals as he may deem advisable. Said advertisements shall describe said bonds with such minuteness and particularity as the City Controller may see fit and shall set forth the amount of the bonds to be sold and the rate of interest they may bear, that the bidder may bid for all or any part of said bonds, the date of opening bids or proposals therefor, the right of the City Controller to reject any or all bids, the amount of deposit which each bidder will be required to make, and when and where the bonds shall be delivered and paid for.

Section 3. Each and every bid and proposal shall be presented to the City Controller, sealed, and shall be accompanied by a duly certified or cashier's check upon some responsible bank or trust company of the City of Indianapolis, Indiana, payable to the order of the City Treasurer of said city for a sum of money which will equal two and one-half (2½) per cent of the face or par value of the bonds bid for or proposed to be purchased. The City Controller shall continue to receive all bids or proposals therefor at the office of the City Controller in said

city until twelve (12) o'clock noon on the day fixed by the City Controller and designated in the advertisement for receiving bids or proposals, at which time and place, and between the said hours of twelve (12) o'clock noon and two (2) o'clock p. m. of said day he shall open said bids or proposals. The City Controller shall award said bonds, or as he shall see fit, a part or any number thereof, to the highest and best bidder therefor, but said City Controller shall have the right to reject any and all bids or proposals or any part or parts thereof and shall have the right to accept a part of any bid and to award upon any bid the whole or less number of bonds covered by such bid, he being the sole judge of the sufficiency or insufficiency of any bid. He may also, in his judgment and discretion, award a part of said bonds to one bidder and a part to another bidder. These provisions shall apply to the case of reoffering and readvertising of said bonds as hereinafter provided for.

Section 4. In case the City Controller shall reject all bids submitted or if he shall award only a part of said bonds, he shall readvertise the bonds remaining unsold in the manner as herein prescribed for the original advertisement, but in such readvertisement he is authorized and directed to fix the date and the time both of receiving and opening bids or proposals, and for purchasers to take up and pay for the bonds which may be awarded. And he shall continue from time to time in like manner to readvertise said bonds for sale until said bonds are sold.

Section 5. In case any bid or proposal shall not be accepted and there shall be no award of bonds thereon by the City Controller, he shall thereupon return to such unsuccessful bidder the certified or cashier's check accompanying the same. option of the City Controller at the time of the completion of the sale and payment for the bonds, said proceeds of said certified check may be applied and deemed a payment on account of the purchase of said bonds.

Section 6. Delivery of any bonds sold shall be made at the office of the City Treasurer of the City of Indianapolis, Indiana, upon such day or days as may be specified in the advertisement or readvertisement for proposals or within such time thereafter as may be fixed by the City Controller and the purchaser and the City Controller may extend the time for such delivery not more than ten (10) days after the day or days specified or agreed upon as above provided. The successful bidder shall take the bonds awarded to him and pay for the same at such place and time and his refusal or neglect or omission so to do shall be a breach of the contract of his bid or proposal, on account of which damages shall be retained or recovered as liquidated as provided in this ordinance.

Section 7. The bonds taken and paid for to the satisfaction of the City Controller shall be binding obligations upon the City of Indianapolis, according to their tenor and effect, and the proceeds derived from the sale or sales of bonds as herein authorized shall be, and hereby are appropriated to the Department of Public Health and Charities to be used by it for the purposes mentioned in Section One (1) of this ordinance.

#### GENERAL ORDINANCE NO. 19, 1929

## SPECIAL ORDINANCE NO. 5, 1929

AN ORDINANCE, authorizing the sale, alienation and conveyance of real estate by the Board of Park Commissioners to the Department of Public Parks, of the City of Indianapolis, and fixing a time when the same shall take effect.

Very truly yours,

L. ERT SLACK,

Mayor.

May 11, 1929.

*Mr. President and Members of the Common Council of the  
City of Indianapolis:*

Gentlemen:

I am compelled to return, without approval, General Ordinance No. 22, 1929 (as amended).

This General Ordinance is an attempt to amend General Ordinance No. 24, 1928, and particularly changing Section 1 of said General Ordinance to the effect that time for the taking effect thereof shall be fixed at "two o'clock a. m. on the second Sunday in June," whereas such ordinance provides that the time of taking effect was "two o'clock a. m., of the second Sunday in May of each year."

Ordinances cannot be amended by the Common Council, except in accordance with the general usages and parliamentary rules, especially Reed's parliamentary rules, as is provided by Rule 8, Subdivision A of the Rules and Regulations governing your Honorable Body, as provided in General Ordinance No. 31, 1928, and such procedure involves the re-writing of that part of the old ordinance which is to be amended and incorporating in the amending ordinances the entire section or sections sought to be amended. The Ordinance passed seeking to amend does not comply with these rules and, therefore, is invalid.

A further reason exists which compels a veto of this Ordinance. Rule No. 18 of the Rules and Regulations of your Honorable Body provides in substance that no matter or proposition on a subject different from that under consideration shall be admitted under color of an amendment.

General Ordinance No. 22, 1929, as introduced, was merely a repealing ordinance and operated only to repeal General Ordinance No. 24, 1928. It did not involve amending that Ordinance either in its title or in the sections of the proposed ordinance. The Ordinance as now presented and as passed by your Honorable Body is an Amending Ordinance only and does not repeal General Ordinance No. 24, 1928.

According to the general rules of procedure, above referred to, governing the matter of amending ordinances, it is not proper and in fact is illegal to entirely change an ordinance introduced with the sole purpose of repealing a previous ordinance by amendment involving an entire change of such proposed repealing ordinance and making it an

amending ordinance. Such change would not be germane to the subject matter of the repealing ordinance as introduced.

May I suggest that in order to amend General Ordinance No. 24, 1928, in the manner sought by your Honorable Body, as disclosed by this General Ordinance 22, 1929, would be to entirely re-write and introduce as an amending ordinance Section 1 of such General Ordinance No. 24, 1928.

For these reasons, and on account of opinions rendered by the office of Corporation Counsel of the City, confirming and approving this disapproval, I am compelled to return it without approval.

Very truly yours,

L. ERT SLACK,  
Mayor.

May 15, 1929.

June 11, 1929.

*Mr. President and Members of the Common Council of the  
City of Indianapolis:*

Gentlemen:

I have this day approved with my signature and delivered to William A. Boyce, Jr., City Clerk, the following ordinance:

GENERAL ORDINANCE NO. 29, 1929

AN ORDINANCE, amending Section 63 of General Ordinance No.

June 17, 1929)

City of Indianapolis, Ind.

277

96, being "an ordinance regulating traffic upon the streets, alleys and public places of the City of Indianapolis, defining violations thereof, repealing all other ordinances and sections of ordinances in conflict herewith, declaring a penalty for the violation thereof," and fixing a time when the same shall take effect.

SPECIAL ORDINANCE NO. 6, 1929

AN ORDINANCE, annexing certain territory to the City of Indianapolis, and defining a time when the same shall take effect.

Very truly yours,

L. ERT SLACK,

Mayor.

June 17, 1929.

*Honorable Sterling R. Holt, City Controller, Indianapolis,  
Indiana:*

Dear Mr. Holt:

It is my opinion that a contingency has arisen requiring the expenditure of a part, not exceeding \$500.00, of the appropriation "Reserve for Contingencies," Item No. 26 of the Budget of the Department of Finance, and as provided for in Section 4 of Appropriation Ordinance No. 4, 1928.

It is necessary that various briefs, answers and other documents be printed, some of which have already been prepared, in connection with the litigation regarding the Citizens Gas Company property, and these will, of course, have to be put in bound form for use by the courts and attorneys. It is also probable that some additional expense will have to be incurred and paid in connection with the handling of this litigation by the attorneys in case they should have to go to other places and thereby incur traveling and hotel expense.

I am, therefore, determining and recommending that the sum of \$500.00 be appropriated for expenditure in connection with the litigation regarding the Citizens Gas Company property now pending in the United States District Court here at Indianapolis.

I shall be pleased to have you approve this proposed expenditure and notify the Common Council of the City of Indianapolis of your approval.

Very truly yours,

L. ERT SLACK,

Mayor.

*Hon. Edward B. Raub, President of the Common Council,  
Indianapolis, Indiana.*

Mr. President and Members of the Council:

The City Manager Election Commissioners have advised this office that they have been compelled to employ legal counsel to defend the law suit attacking the validity of the City Manager Law and have employed Judge Fred C. Gause, Judge Charles E. Cox, Mr. Ralph Kane and Mr. Taylor Groninger, who have already appeared in the lower court and are to continue their appearance and defense in the cause on appeal to the Supreme Court of the state. The Election Commissioners further advise that there are not sufficient funds available in the budget for the payment of the counsel fees and recommend the appropriation of \$2,000 for that purpose out of Item 26, Reserve for Contingencies, Finance Department.

In my opinion this appropriation should be made direct and

City of Indianapolis, Ind.

rendered available for payment to the counsel named, to be in full of all services to date and including all additional services to be performed in this action and in any future litigation involving the validity of the City Manager Law in which the Election Commissioners may be involved. It is quite necessary that this and all other actions attacking the City Manager Law may be properly and adequately defended to the end that it may be completely upheld by the court of last resort and the action of the City Manager Election Commissioners in the employment of counsel and the defense of the validity of the law must be approved and supported. The fee requested is very reasonable, considering the amount of services necessary to be performed and the character and ability of the counsel engaged to defend the Commissioners.

I, therefore, recommend that your honorable body appropriate and make available the sum of \$2,000 for this purpose and cause it to be available for payment directly to the named attorneys and without a transfer to any department. A resolution for that purpose is being prepared and will be presented for attention.

Yours respectfully,

L. ERT SLACK,

Mayor.

I approve the above request.

STERLING R. HOLT,

City Controller.

## COMMUNICATIONS FROM CITY OFFICIALS

July 1, 1929.

*Hon. L. Ert Slack, Mayor of the City of Indianapolis, City:*

Dear Sir:

The City Manager Election Commissioners employed counsel to defend the suits attacking the validity of the City Manager Law, which were filed against them as such commissioners. The decision of the lower court upheld the validity of said law and an appeal was taken to the Supreme Court of Indiana and is now pending.

Judge Fred C. Gause, Judge Chas. E. Cox, Mr. Ralph Kane, and Mr. Taylor Groninger represented the Election Commissioners in the lower court and will appear for us in the Supreme Court.

We recommend that there be paid our counsel one fee of \$2,000.00, to be divided among them as they see fit, which fee shall be in full not only of all services to date and in the Supreme Court, but for all services to be rendered by them to the Election Commissioners in any future litigation involving the City Manager Law or any part thereof, and in which the Election Commissioners are involved.

This fee and employment involved has been agreed upon by said counsel.

We are mindful of the fact that the Common Council has heretofore appropriated \$1,000.00 for an attorney for said Election Commis-

sioners which is not an adequate amount to meet the emergency which has arisen. The Election Commissioners realize that it may be necessary to use all or a part of this \$1,000.00 for various legal services in the busy days preceding the election and desire to conserve this fund for future use. In order that we may preserve said appropriation of \$1,000.00 intact we respectfully recommend that you ask the Common Council to appropriate from the Mayor's contingency fund the sum of \$2,000.00 and authorize its expenditure for the purpose of paying counsel as set forth above.

Respectfully,

City Board of Election Commissioners under  
City Manager Law,

By WILLIAM A. BOYCE, JR.,

Clerk.

Gentlemen:

The following petition has been filed in my office as of July 13, asking for the disannexation of the territory between Thirty-eighth Street, the Millersville Road, and the first alley east of Eastern Avenue. I presume that this is done in accordance with the provisions of Section 11203, Burns' Revised Statutes, 1926:

The common council shall have power by ordinance to disannex and throw out any territory forming a part of the corporate limits of such city upon a petition of a majority of the owners of real estate therein, but such disannexation shall not relieve such territory from the payment of any municipal assessments for which such real estate may have become liable."

Very truly yours,

 City Clerk.

\$500.00 to City Clerk Temporary Wages Fund, No. 12.

The office of Corporation Counsel also advises the necessity for the publication of the ordinance and the posting of said notices.

Under the circumstances it appears that such transfer should be made, and a proper ordinance to that effect is to be presented to the Council for consideration, and it is now recommended that such transfer and appropriation for the purposes indicated be passed by your honorable body.

Respectfully,

L. ERT SLACK,  
Mayor.

Approved:

STERLING R. HOLT,  
City Controller.

## COMMUNICATIONS FROM CITY OFFICIALS

July 19, 1929.

*Mr. Sterling R. Holt, City Comptroller, City Hall, Indianapolis, Indiana:*

Dear Sir:

Will you kindly recommend a transfer ordinance to be presented to the City Council making the following transfers of funds out of your Finance Department Fund No. 26, Reserve for Contingencies, of the total sum of \$3,000, to be reappropriated as follows:

\$2,500 to City Clerk Advertising Fund, No. 24;

\$500 to City Clerk Temporary Wages Fund, No. 12.

The \$2,500 amount is made necessary by reason of the legal advertising of General Ordinance 40, 1929, containing the description of

precinct boundaries, which is estimated to cost \$2,000, plus an estimated cost of \$500 for printing the precinct notice posters.

The \$500 item to Account No. 12 is made necessary by an estimated cost of \$250 for labor for posting said notices in four places in each precinct, and an estimated cost in temporary labor of \$250 during the month of August in connection with preparation for the fall election which is not covered by the budget appropriation for fall election expenses.

Very truly yours,

WILLIAM A. BOYCE, JR.,  
City Clerk.

*To the Honorable President and Members of the Common  
Council of the City of Indianapolis, Indiana:*

Gentlemen:

I have this day the honor of submitting to your honorable body, pursuant to the statutes of the state of Indiana, the proposed budget of all of the departments of government of the city of Indianapolis for the year 1930, together with the proposed tax levies of the general fund and each separate fund, all of which is hereto attached and which has been transmitted by and with the recommendation of the Honorable Sterling R. Holt, city controller, as required by law.

In transmitting for your consideration this budget which in-

volves the levy of taxes showing an increase of seven cents (.07) over the levy of last year, I wish to direct attention to the causes entering into the increase.

The general fund levy is increased only one and one-half cents (.015) reflected not in increase of salaries or personnel, but in an increase of general governmental activities; the annexation of additional territory; the natural increase of expenses on account of the growth of the city and the need for a larger municipal operation, especially in connection with the police and fire departments, produces inevitably a need for a larger appropriation.

In connection with the present management of the various departments supplied through the general fund levy, I wish to assure you that we are now meeting all current expenses out of the levy instead of allowing these current expenses to accumulate. About \$1,220,000.00 of bonds were made necessary in the last three years to meet current expenses, most of which were reduced to judgments in court against the city. Such a management of city affairs is inexcusable and created a burden upon the present administration which should not have been necessary had the administrations carried on the business of the city as it is now carried on, by the payment of current expenses as they become due and out of the general fund levy and appropriations.

The other increases are reflected in the items of city sinking fund; park district bond fund; recreation; board of health; flood prevention sinking; and municipal improvement certificate fund, all of which, except recreation and board of health, are made necessary on account of an increase in the interest charges and redemptions. The increase of one cent (.01) in the board of health is reflected in an increase of expenses necessary in connection with the operation of the city hospital and the increase of one-half cent (.005) in recreation means no particular increase of expenditures over 1929 and the department is assuming certain additional activities heretofore carried by the park department. There is a total increase of eight and one-half cents (.085), but there has been a decrease of one cent (.01) in the sanitation fund and of one-half cent (.005) in the war memorial fund, and these decreases, according to figures furnished by the office of the city controller, will not cause any failure to provide for the necessary redemption and interest charges of either of those funds.

In presenting this budget and the proposed tax levy of \$1.17, being an increase of seven cents (.07) over last year, I am pleased to state that much consideration and work has been given by the office of the city controller and this office, and we have made every effort to keep the budget as low as possible, consistent with the growing needs and increased activities in every department of the city government.

No specific provision has been made for a contingent fund, as was provided last year by an appropriation of \$50,000.00. The tabulation of the city controller and this office would indicate that on this levy there is a possible amount aggregating \$35,000.00 or more of an unexpended balance. Whether the total expenses of the city next year will be increased or decreased by a city manager form of government no one can accurately state, but we have assumed that at least there will not be need for an increase of the budget in any department which will aggregate a sum in excess of the estimated balance for the

August 5, 1929)

City of Indianapolis, Ind.

441

year, and in view of this situation, we are not recommending any additional contingent fund.

Of course, if the council should feel disposed to create a contingent fund for the purpose of supplying a new city manager form of government with unappropriated money for disposal in any manner, which might be deemed necessary by the new government, such action of the council will be approved by this department. However, the form of the ordinance of appropriation being submitted herewith contains sections 3 and 4 which, in substance, provide that all of the appropriations made in this budget and allocated to the separate divisions and departments shall constitute an aggregate appropriation and be subject to such re-allocation as the city manager form of government may deem necessary and that no official or employee shall have a vested right to receive the amount set out in the budget transmitted (except where otherwise provided by law) and such salaries may be decreased and subject to control by the executive department, and that no compensation shall be increased except by ordinance and where funds are available for such purpose.

With the estimated unappropriated balance hereinbefore referred to and with the elastic provisions of the ordinance submitted, just above referred to, it would appear that ample and proper provision has been made for the accommodation of the new form of government and its operation.

Respectfully submitted,

L. ERT SLACK,  
Mayor.

August 5, 1929.

*To the President and Members of the Common Council of  
the City of Indianapolis, Indiana:*

Gentlemen:

An ordinance creating a Department of Public Utilities Fund No. 1 and transferring to that fund the sum of \$3,000.00 from Fund No. 26 Reserve for Contingencies is submitted to your honorable body and it is recommended that this ordinance be adopted.

The statute creating a Department of Public Utilities for the city of Indianapolis provides for the payment of salaries of directors and trustees and also for the cost of bonds made necessary for each of the seven directors. The total amount of salaries of trustees and directors aggregates the sum of \$2,556.02 and the cost of the seven bonds provided by the directors amounts to the sum of \$322.60.

These sums should be paid and in view of the fact that there is no fund at present available for the Department of Public Utilities and that these sums should be paid from funds of such department, it is necessary to transfer to that fund a sufficient sum to pay these amounts.

This ordinance is, therefore, submitted for passage with our recommendation that it do pass.

Respectfully submitted,

L. ERT SLACK,  
Mayor.

The city controller shall award said bonds, or as he shall see fit a part or any number thereof, to the highest and best bidder therefor, but said city controller shall have the right to reject any and all of such bids or proposals or any part thereof, and shall have the right to accept a part of any bid, and to award upon any bid the whole or a less number of bonds covered by said bid, he being the sole judge of the sufficiency or insufficiency of any kind. City Controller.

August 19, 1929.

*Mr. Sterling R. Holt, City Controller, City of Indianapolis,  
City Hall, Indianapolis, Indiana:*

Dear Sir:

We are handing you herewith 15 copies (14 for the Council and one for your files) of a draft of a general ordinance which we respect-

fully request that you present to the Common Council at its meeting this evening. The purpose of the ordinance is to authorize certain transfers and reappropriations of funds of the Board of Sanitary Commissioners; the transfers and reappropriations covered by the first section of the ordinance being necessitated by unexpected changes in conditions of certain of our departments which have required the expenditure of more moneys in certain departments and of less moneys in others, and the purpose of the transfer and reappropriation covered by the second section of the ordinance being to authorize the payment of certain bills contracted in 1928 and not received in time for payment in 1928.

Yours truly,

BOARD OF SANITARY COMMISSIONERS,

(Signed) By O. C. ROSS, President.

August 17, 1929.

*To the Members of the Common Council, Indianapolis, Ind.:*

A. H. MOORE,  
City Civil Engineer.

*Mr. A. H. Moore, City Civil Engineer, City of Indianapolis,

## OTHER COMMUNICATIONS

August 8th, 1929.

*Mr. William A. Boyce, City Clerk, Room No. 14, Police Station, Indianapolis, Indiana:*

Dear Sir:

Please find enclosed two letters, one from Joe R. Beckett with reference to airport and the other from Mrs. Lucius B. Swift in answer to the resolution adopted by the Council some few days ago.

Very truly yours,

EDWARD B. RAUB.

*Mr. Edward B. Raub, President, City Council:*

I am deeply moved by the resolution introduced by Mr. John F. White and adopted by the Indianapolis City Council which you say, "Speaks the feelings of each and every member of the Council."

Especially would my husband care to have said of himself that

he "lived serenely in the knowledge that his efforts were for honest and good purposes and that his life perhaps would add to the general well-being of the community."

Sincerely,

MARY ELLA SWIFT.

July 30, 1929.

*Honorable Edward Raub, Councilman, City of Indianapolis,  
City Hall, Indianapolis, Indiana:*

Dear Mr. Raub:

There is no group more sincerely interested in the new municipal airport than the members of the Solo Club. There are members in this group who have been actively engaged in flying ever since the World War, and aviation as a vocation, will continue to interest a large percentage of our members. For these reasons the club feels sincerely interested in aiding the city to provide a well advanced plan to take care of aviation development.

We singly and as a group have considered entrance into the port, and feel that the method of reaching the same is one of the primary factors, which will later determine the ports success or failure to a large degree. We wish you to know that we feel the winding, narrow and difficult to follow route, out Kentucky and Oliver avenues would be a distinct disadvantage to the port. Such a route would fail to take into consideration the desirability of making it easy for persons west of the city as well as our own citizens to reach the port. We feel after due consideration that a broad entrance north to the National Road is by far the better method of entrance and the most easily and quickly developed.

There is also no doubt about its being the cheapest broad route to acquire, as only \$30,000.00 is needed to provide a 100-foot roadway north to the National Road. The other, or the Kentucky and Oliver avenue route would require broadening and straightening and extensive improvement for one-half of the total distance from the centre of the city to the port, and our citizens are now familiar with the high cost of such improvement.

We therefore respectfully urge that you take immediate steps to acquire the ground necessary for the entrance from the National Road. We are anxious that all reasonable speed be used in the completing of Indianapolis's new aviation centre so that our city will soon be in a fair way to compete with other progressive cities in bringing the new aviation manufacturers here to Indianapolis.

Respectfully,

JOE R. BECKETT,

Chairman Civic Affairs Committee Solo Club.

August 16, 1929.

*To the Members of the Common Council, Indianapolis, Ind.:*

We, the members of the Incorporated Northeast Civic League, will have a committee present at your next meeting.

We have heard nothing of our petition for disannexation, same being filed about three weeks ago.

Our territory is bounded on the north by Sutherland avenue and Millersville road, on the east by Eastern avenue, on the south by 38th street, on the west by Orchard avenue.

We urge that a full report be given at this time.

Respectfully yours,

Very truly yours,

L. ERT SLACK,  
Mayor.

October 7, 1929.

*Mr. President and Members of the Common Council of the  
City of Indianapolis:*

Gentlemen:

An ordinance is being introduced accepting certain gifts to the City of Indianapolis, establishing a fund known as the "Police Department Radio Signal Bureau Fund," authorizing expenditures therefrom, establishing the "Police Radio Signal Bureau" and providing for rules and regulations in connection therewith and I have the privilege of requesting that this ordinance be considered by your honorable body and adopted as a general ordinance of this city.

Certain public spirited citizens of Indianapolis have organized a Citizen's Police Radio Commission and through this commission, various donations and gifts are being made and doubtless further gifts and donations will be made for the purpose of establishing, installing, operating and maintaining a radio signal and communication system in the Indianapolis Police Department. Whatever gifts or donations are made will be and are now being tendered as gifts to the City of In-

Oct. 7, 1929)

City of Indianapolis, Ind.

dianapolis for such purpose. It is therefore desirable that such gifts be accepted by the City Council and made available for the purpose intended.

The Board of Public Safety is engaged in working out in the Police Department a special bureau to establish, construct, maintain and operate a radio signal and communicating service and will handle the gifts and donations as they are received by the city in the same manner as public funds of the city are handled and expended. The Bureau and its management and control will be under the jurisdiction of the Board of Public Safety and therefore a public instrument of the city.

The establishment and operation of a Radio Bureau in our Police Department has been under consideration for some time and the very generous action of the Citizen's Commission and the various donors to this fund is a matter which we fully appreciate. Many other cities are establishing such a Department of Public Safety and successfully operating the same. It is not therefore exactly an experiment. In fact, the use of the radio in the apprehension of criminal conduct and the prevention of crime, as well as conviction of criminals, seems to be an established fact and a positive instrument efficient for that purpose. At least, on account of the public interest manifested in Indianapolis in this effort, I feel certain your honorable body will see the necessity of providing for such a bureau in our own police department. I have the honor therefore to request, after due consideration, the proposed ordinance, and at the time the ordinance is up for final consideration, whatever the gifts and donations may amount to may be inserted into the ordinance before final passage.

Respectfully,

L. ERT SLACK,  
Mayor.

## OTHER COMMUNICATIONS

October 3d, 1929.

*To the Honorable City Council, Indianapolis, Indiana:*

Attention Mr. Robert Springsteen.

Gentlemen:

The attached clipping augments our experience that—"Life is one damn thing after another" to property owners in our "No mean City."

The writer and sister, Rosamond F. Penn, own six wooded lots opposite and across the street, east side of Boulevard place, from the

proposed zoning for business, which we oppose for various and good reasons.

We hereby register our protest against zoning for business the west side of Boulevard place between 49th street and 47th street. We own six beautiful, wooded lots on east side of said area, which we regard as high class residence property. The same would be damaged and we would suffer no little loss in value of these six lots, if you decreed that business run rampant just across the street from same.

We have lived in this area on Boulevard place for seven years. Aside from our residence, the one adjoining is owned by us, and we are the only residents in this street, hence we feel that our protest should have due consideration.

If the residents between West point to Cornelius avenue desire business zoned there, why not stop at Cornelius on the east border? We deeply urge that business be not placed on Boulevard place from 49th street to 47th street.

We trust that you are inclined to give our prayer due and favorable consideration. Thanking you,

Most cordially,

J. F. SPAUNHURST,  
ROSAMOND F. PENN.

STERLING R. HOLT,  
City Controller.

October 16, 1929.

*Mr. Sterling R. Holt, City Comptroller, City Hall, Indian-  
apolis, Indiana:*

Dear Mr. Holt:

I am sending you herewith fourteen copies of a proposed appropriation ordinance covering \$9,188.25 additional money for Municipal

Election expenses. This is an emergency request due to the overthrow of the Manager Law, necessitating the employment of two sheriffs in each precinct instead of one; the use, repair and delivery of voting machines instead of paper ballots; the increase of Election Board officials due to the Council's increase of fifteen precincts, and other miscellaneous items enumerated in the ordinance which are self-explanatory.

While the Election Board is authorized by law to make these expenditures regardless of appropriation, it is the desire of the present Board to conform to the budget law so far as it is practicable.

Your approval of this ordinance with your recommendation to the Council for its passage under suspension of the rules, will be appreciated.

Very truly yours;

WILLIAM A. BOYCE, JR.,  
City Clerk.

October 21st, 1929.

## COMMUNICATIONS FROM THE MAYOR

October 22, 1929.

*Mr. President and Members of the Common Council of the City of Indianapolis:*

Gentlemen:

General Ordinance No. 78, 1929, is herewith returned without my approval.

Section 1 provides that the bonds involved in this ordinance shall bear date of December 1st, 1929, which date falls on Sunday. It is our opinion, which opinion is also shared by the office of the corporation counsel and other attorneys of our city interested in such matters, that it might not be legal for bonds of the city to bear a date falling on a Sunday of any week. For this reason I have decided to veto the ordinance with the recommendation that your Honorable Body convene as soon as convenient for the purpose of passing an ordinance in all respects the same as this one except the date of the bonds be fixed so as to avoid the doubt as herein set forth.

Very truly yours,

L. ERT SLACK,  
Mayor.

*Mr. President and Members of the Common Council of the  
City of Indianapolis:*

Gentlemen:

During the latter days of the recent campaign for the election of city officials, some criticism was indulged in relative to certain condemnation proceedings in the Superior Court, Room 1, in re Dilling case and Granite Sand & Gravel case, and also relative to certain purchases made by the Purchasing Department. Perhaps other criticisms may have been made within the knowledge of members of your Honorable Body.

Ordinarily criticisms of this nature are regarded as "campaign talk," expected to be forgotten when the election is over.

However, we are not disposed to let it go by. It is due to the

particular departments and individuals referred to and due also to this entire administration, that investigation be made to such extent and in such manner as your Honorable Body may deem wise and proper. May I further suggest immediate action to be followed by a prompt and full report?

Respectfully,

L. ERT SLACK,  
Mayor.

In RE: Police Station—Indianapolis  
Att'n.: Mr. Dammeyer.

Gentlemen:

Inclosed please find herewith two blue prints of a plan showing

proposed addition to the Indianapolis Police Station for increasing the space for taking care of prisoners. These plans show fourteen (14) individual prison cells to be constructed in the 3d story above the present cells, east of the Turnkey's office.

We are also inclosing our estimate for the cost of this work. These cells are to be constructed with steel plate sides and backs and hard steel grating and doors front and top. The floors to be constructed of concrete, ceiling to be insulated against heat and cold, and then plastered. The walls are to be plastered. The present roof which leaks in a number of places is to be repaired or possibly replaced with an entire new roof.

Each one of the cells is to contain two bunks, a water closet and a lavatory. The entire inside of the room, together with all of the cells to be given two coats of lead and oil paint. Ample heat is to be provided in the entire room. A doorway is to be cut through the west wall of this room to gain access into the present 3d floor court rooms. This work is also to include some changes in the 2d floor Turnkey partition, so that prisoners can be taken up the stairway without going through the Turnkey's private desk room.

This plan was submitted to Mr. Worley, Chief, who gave his entire approval. It will take about two to three weeks to make working drawings and specifications before taking bids.

Yours truly,

## INTRODUCTION OF GENERAL ORDINANCES

By Board of Safety:

### GENERAL ORDINANCE 101, 1929

AN ORDINANCE, ratifying, confirming and approving a certain contract made and entered into between the City of Indianapolis by

and through its Board of Public Safety, its mayor and the Indianapolis Power and Light Company for the use of broadcasting equipment in connection with the Police Radio Signal Bureau and fixing a time when the same shall take effect.

WHEREAS, heretofore on the ----- day of -----, 1929, the City of Indianapolis by and through its Board of Public Safety and with the approval of the mayor of the City of Indianapolis and in full compliance with the law, duly entered into a certain contract and agreement in writing, which said contract and agreement is in the words and figures as follows, to-wit:

THIS AGREEMENT made and entered into this ----- day of -----, 1929, by and between the Indianapolis Power & Light Company, hereinafter known as the power company, hereinafter known as the city,

WITNESSETH:

WHEREAS, the power company operates a broadcasting radio station with certain emergency equipment as hereinafter described; and

WHEREAS, the city contemplates and hereby signifies its intention to establish a radio signal bureau under the supervision of its Board of Public Safety—purpose of said bureau being to install, operate and maintain necessary broadcasting and receiving equipment for the object of transmitting police calls to police squad cars which will be equipped with said receiving equipment sets, and also to transmit calls to such other receiving sets as the city may determine to be necessary; and

WHEREAS, power company is willing to lease to the city use of certain of its broadcasting apparatus as hereinafter specified, for purposes aforesaid;

NOW, THEREFORE, it is agreed between parties as follows:

Power company will lease to the city for the sum of one dollar (\$1.00) per year, the use of its 500-watt broadcasting transmitting station now located on top floor of Knights of Pythias building in Indianapolis, Indiana, the following conditions, to-wit:

Necessary changes shall be made in said station to adapt it to the short wave operation necessary for said purpose, wholly at the expense of city and in a manner approved by power company.

Convenient arrangements will be furnished by city in connection with said change, so that the station can be changed to its present wave length quickly in case of emergency for broadcasting power company's regular radio programs—said arrangements to be acceptable to power company.

After said changes and arrangements are made by city, power company will furnish maintenance labor on said broadcasting set—city to furnish all supplies including tubes for the same. Power company will reimburse city, however, for its share of said supplies, including tubes, said share being determined by prorating the actual hours use of the station by power company, to total hours use of the station

by both parties—it being understood that total hours used will be the actual hours that the set is energized during the year.

The power company will pay the present rent on present quarters of station in the Knights of Pythias building, as long as it desires to keep said set for emergency use. Thereafter, city will pay necessary rent for Knights of Pythias building, or the city, at its option may move said set to other quarters at city's expense.

City will secure necessary federal licenses or any other licenses which may be necessary in the future for operating set for city purposes.

Power company assumes no liability whatever for successful operation of said set or system. City will save power company harmless from any claims for damages in connection with the operation and maintenance of said set while used for city purposes.

City will purchase necessary power from power company for operating said set, at power company's regular scheduled rates, providing, however, that power company will reimburse city for the portion of electric current used by the power company, for the time set is used by it, in the manner hereinbefore described.

Power company may cancel this lease any time at its option on 30 days written notice to the city.

City will furnish necessary operators for operating said station, said operators to be qualified as may be required by law or Federal Radio Commission rules, and further, said operators must at all times be satisfactory to the power company.

City will furnish necessary telephone connections to said set for city purposes, also any other appurtenances necessary for city operation of said set.

Power company may use said set for emergency use for broadcasting its radio programs when its regularly used transmitting station is out of service. However, during this period, police calls of an emergency nature will be given preference.

At termination of this lease, city agrees to return set to power company in substantially its present condition, ordinary wear and tear excepted.

Mr. Lieber, chairman of the Special Committee appointed by Pres. Raub to investigate certain charges made by Charles W. Jewett, presented to the Council and the press his committee report, as follows:

*Hon. Edward B. Raub, President, Common Council, City of Indianapolis:*

The Committee which you appointed to investigate certain charges made by Charles W. Jewett in connection with the administration of municipal affairs by certain designated officials of the City of Indianapolis, begs to report the results of its investigations as follows:

Mr. Jewett's charges were filed with the Committee in a type-written communication of thirty (30) pages, which is attached to this report as a part thereof. This Committee employed James W. Noel as special counsel to assist in the investigation and employed Mr. Walter Carpenter, shorthand reporter, to take and transcribe the evidence. The transcribed evidence, under his certificate, is filed herewith and made a part of this report. The numerous documents offered as part of the evidence have been deposited with William A. Boyce, Jr., City Clerk, and other parts of records introduced but not made a part of the transcript are found in the hands of Mr. Boyce or will be found in the minute books and records of the Board of Public Works of the City of Indianapolis.

# I

Those charges made by Mr. Jewett with respect to unlawful purchases through the City Purchasing Department and irregularity and insufficiency in the form of certain city ordinances will be treated as follows:

(1) Prior to July 5, 1929, an officer of the Burke Cadillac Company negotiated with Claude M. Worley, Chief of Police, for the purchase by the City of one Model 328 LaSalle Sedan automobile, to be equipped with six (6) wire wheels, fender wells, two extra tires and trunk rack, tire covers, bullet proof wind shield, two-way shock absorbers and spring-covers, at a proposed price of Twenty-six Hundred Fifty Dollars (\$2,650.00). An invoice for said car was made to the City of Indianapolis under date of June 29, 1929, at said price. Negotiations were also had with Mr. Joel Baker, City Purchasing Agent, and the car was delivered

with the aforementioned equipment as one unit, on or about July 5, 1929. The aforesaid invoice for \$2,650.00 was withdrawn from the City Controller's office by the City Purchasing Department and the Purchasing Department substituted therefor two separate invoices representing the same purchase, one for a seven passenger sedan body at the price of Six Hundred Seventy-five Dollars, and one for a LaSalle chassis at a price of Nineteen Hundred Seventy-five Dollars (\$1,975.00), the aggregate of the two invoices being Twenty-six Hundred Fifty Dollars (\$2,650.00), the agreed purchase price of the car. It was apparent that the city was negotiating for this car from June 25, 1929, until July 5, 1929, during which time there occurred two meetings of the Common Council.

The proposed purchase was made and the car delivered without the Council having been consulted and without any ordinance having been adopted by the Council authorizing such purchase.

The statutes of Indiana limiting purchases by or for the Board of Public Works and the Board of Public Safety provide:

"That when a sum of more than \$2,000.00 is required to be paid for - - - purchase of any real estate or personal property, the same shall not take place unless the - - - purchase is specifically authorized by ordinance."

The evidence shows that in the above case the car was purchased as one unit, it was not intended that the chassis and body should be purchased separately, and that no separate invoice was made by the vendor until after it had rendered its invoice for \$2,650.00 for the car as a unit. Thereafter, the Purchasing Department of the City requested the vendor to make separate invoices, one for the chassis and one for the body, for the respective sums of \$1,975.00 and \$675.00, which was done. Mr. Baker, City Purchasing Agent, testified that he inspected the car when it was delivered, observed that it constituted one unit, but afterwards passed requisitions made by the Department of Public Safety 4190 and 4191 splitting the purchase, which separate requisitions were signed by Fred W. Connell, President of the Board of Safety, and by Claude M. Worley, Chief of Police.

Two receipts were given by the Police Department for the car, one dated July 6th for the chassis and the other dated July 13th for the body, although both were purchased and delivered as one unit and at the same time. The original invoice having been withdrawn by the Purchasing Department from the controller's office, the split invoices, supported by separate requisitions, were passed by the Purchasing Agent, at the request of the Board of Safety, to the Controller for payment, who detected that the two requisitions constituted one purchase in an amount exceeding Two Thousand Dollars; found that no ordinance had been passed authorizing such purchase and the payment was withheld.

Your Committee has concluded from the foregoing statement of facts and all the evidence taken in connection therewith, that the splitting of requisitions on the purchase of said car was done for the purpose of evading the authority of the Common Council with respect to such purchase; that the requisitions and invoices, as so separately made, for the body and the chassis of the car were irregular, not in harmony with the purpose and intent of the statute and that such purchase is voidable. It further finds that under the statute the City Purchasing Agent

is charged with the duty of making purchases for the City upon requisitions of the proper officers, and authority of the Council when the purchase exceeds \$2,000.00, and that it was his duty not to honor such requisitions and not to pass the same for payment, in the absence of authority from the Council. Likewise, those who executed the requisitions clearly violated the law. There was some claim for emergency. The statute makes no provision for such purchases under any emergency. As a matter of fact, the City Council could easily have exercised its authority and authorized such purchase during the time of the negotiations, if it had been requested to do so.

(2) The Committee, in the course of its investigation, did not learn of other splitting of purchases for the purpose of evading the Council. A transaction purchasing a Huber tractor and several transactions where part payment was made by trading in city equipment, was brought to our notice. These had been construed as being purchases of less than \$2,000.00. We believe that good practice and the spirit of the law requires the authority of the Council where the transaction exceeds \$2,000.00, even though the cash outlay of the City is less than \$2,000.00.

The evidence showed that all transactions were made to the advantage of the City, and in the purchase of the LaSalle car in question the price agreed upon was very fair. Neither the charges nor the evidence claimed any collusion, fraud or dishonesty on the part of any city employee.

(3) Charges were made with respect to purchase order No. 1403 for one only three ton White truck chassis with cab, etc., for Sixty-one Hundred Fifty Dollars (\$6150.00). Examination of this transaction shows that this purchase was authorized by the Board of Park Commissioners and paid upon authority of that Board. Purchases made by the Park Commissioners do not come within the jurisdiction of the Common Council, and no ordinance was necessary therefor.

(4) The charges criticize purchases of equipment from the gasoline fund, and cite letters from the State Examiner, as well as the statute applying thereto. The Committee reports that the Common Council has, by budgeting and other general authority entirely complied with the statute in that case, and that so far as the authority of the Common Council is concerned it has found no violation of the law in the making of such expenditure from the gasoline tax funds.

(5) The charges contain criticism of the form of ordinances passed by this Common Council with respect to the authorization of purchases in excess of \$2,000.00, and especially with respect to General Ordinance No. 29-1928, General Ordinance No. 91-1928, General Ordinance No. 10-1929, Appropriation Ordinance No. 5-1929, General Ordinance No. 33-1929, General Ordinance No. 48-1929, General Ordinance No. 55-1929 and Appropriation Ordinance No. 14-1929, upon the ground that said ordinances do not specify in detail the particular thing to be purchased and the exact price to be paid therefor. This Committee, upon examination of the statute, upon opinion of the Corporation Counsel and upon opinion of its special counsel employed for this examination, has concluded that the ordinances criticized are proper in form and comply with the statute, particularly with Section 10,340 (Burns' R. S. 1926). The details which in the opinion of Mr. Jewett are required for

such ordinance, would defeat successful marketing on the part of the Purchasing Agent, after the authority is granted. The statutes require in many cases that advertising be given and sealed bids be taken for such purchasers. Where such advertising and bids are not required by law, it certainly is the duty of the Purchasing Agent to make efforts to secure competition in the matter of such purchases, and by all means to secure the best articles at the least expense to the City. Where too much specification and detail is stated in such ordinance, it ties the hands of the City Purchasing Agent as to such marketing. Besides, he has no authority to spend money for advertising and has no authority to take such bids except as such authority is derived from and based upon the ordinance required under Section 10,340.

In our opinion, the Council, which is the legislative body, is expected "specifically" to grant such authority by ordinance as will permit the purchasing agent and the Department to proceed to make judicious and economical purchases for the City, under authority of the ordinance. The responsibility as to the details of the purchase rests upon the City Purchasing Agent and the Department for which he is buying. The inspection of the articles purchased, to determine whether they are according to contract, likewise rests upon the City Purchasing Agent and the Department for which the purchase is made, and the auditing of the invoices and accounts rests likewise upon the City Purchasing Agent and the office of the City Controller.

This Committee takes opportunity to say at this point that the City Controller's office has displayed great vigilance with respect to the expenditure of moneys from the funds of the City and is entitled to public appreciation therefor.

(6) This Committee calls attention of the Council, as a fact known to each member thereof, that the present Common Council has in no instance adopted an ordinance providing for a purchase in excess of \$2,000.00, without making careful preliminary investigation as to the necessity of the purchase, the exact thing required and the cost thereof if purchased economically. In this respect, it has felt that it was due to the public that all purchases to be made upon the authority of the Council should pass its scrutiny, so that no public funds should be wasted by unnecessary or careless purchases. There is no authority requiring subsequent approval of a purchase made under the authority of an ordinance, in fact, purchases made without the authority of the Common Council, either by appropriation or by special ordinance, are entirely void.

(7) With respect to the use of automobiles now owned by the City of Indianapolis, this Committee appointed a sub-committee consisting of Mr. John F. White, Mr. Albert Meurer, Mr. Paul Rathert and Mr. Robert E. Springsteen, who have made a special report on the subject which is filed herewith and speaks for itself and is made a part of the report of this special Committee.

## II

### Purchase of Land for Flood Prevention Purposes

From February 2, 1927, to April 20, 1927, Mr. Oren S. Hack, together with Mr. Lemon H. Trotter and Roy C. Shaneberger, were the

three members of the Board of Public Works, having been appointed by Mayor Duvall.

On February 2, 1927, the Board of Public Works, Mr. Hack voting, adopted Declaratory Resolution No. 13,258 providing for the condemnation of property for an uncompleted portion of the Indianapolis Flood Prevention Project. At the same time the Board rescinded all action with respect to former pending resolutions on that subject, including an estimate by City Civil Engineer Lingenfelter and approved by Board of Works members Wm. H. Freeman and M. J. Spencer, fixing the value of the Dilling land at \$142,558.00 and the Granite Sand & Gravel lands at \$346,336.00 (Exhibit "Z"). Hearing was had on that Declaratory Resolution on March 28, 1927, and the Board directed the Indianapolis Real Estate Board to appraise the property affected by the resolution. Mr. Hack did not participate in this action. On the same date the Board approved the estimate of the cost of flood prevention work based upon the appraisal furnished by the Indianapolis Real Estate Board, in which case the appraisal and the engineers' estimate gave One Hundred Thirty-nine Thousand Eight Hundred Seventy-six Dollars and Eighty-one Cents (\$139,876.81) as the total estimate and appraisement for the real estate to be taken under the resolution. The property to be taken then owned by Dilling & Company was appraised at fifty-five thousand, five hundred and fifty (\$55,550.00) dollars including improvements valued at \$2,000.00) and the property to be taken then owned by the Granite Sand & Gravel Company et al., was appraised at Sixty-one Thousand Seven Hundred Eighty-seven Dollars and Seventy-five Cents (\$61,787.75). A primary assessment roll was then ordered, awarding damages for these two properties at the above figures.

Mr. Hack did not participate in any action touching this improvement, the engineers' estimates, the appraisements or the adoption of the primary assessment roll, the records showing that he did not participate upon the grounds, as stated by Mr. Hack to the Board, that for several years he had been attorney for Dilling & Company.

On April 20, 1927, the record shows that all three members of the Board, including Mr. Hack, resigned, their resignations were accepted on said date and a new Board took office.

Mr. Hack testified that at some time before remonstrances were filed by Dilling & Company he had, at the instance of Dilling & Company, employed Merle N. A. Walker to act as attorney for that company in the matter of remonstrance against the assessment shown by said assessment roll and appeal therefrom, if necessary.

After resigning from the Board, Mr. Hack became active as attorney for Dilling & Company in an appeal from the final assessment roll, and on June 28, 1927, together with said Walker, filed Dilling & Company's appeal in Room 1 of the Marion Superior Court. He afterwards was active as attorney in that case, consulted with the Corporation Counsel with respect to compromise thereof and was attorney of record in a judgment entered December 2, 1927, against the City for One Hundred Thousand Dollars (\$100,000.00), which was vacated and entered in different form on December 7th, Merle N. A. Walker on said later date appearing in court as counsel for Dilling & Company. The assessment roll was modified so as to award Dilling & Company the sum of One

Hundred Thousand Dollars (\$100,000.00) as damages, instead of the sum of Fifty-five Thousand Five Hundred Fifty Dollars (\$55,550.00) as shown by the engineers' estimate, the Indianapolis Real Estate Board appraisal and the assessment roll as finally adopted by the Board.

It does not appear that Mr. Hack received any confidential information while said matter was pending before the Board of which he was a member that he at any time used or could have used to the detriment of the City of Indianapolis. All of the proceedings were public, including the engineers' estimates, the appraisals and the assessment roll.

The only question as to the propriety of Mr. Hack's conduct in appearing for Dilling & Company would be based upon the principles of ethics. This question of propriety was decided by Mr. Hack for himself. The committee fails to find that his subsequent participation as attorney for Dilling & Company in itself operated to the disadvantage of the City.

It is apparent to the Committee that Mr. Hack's resignation, accepted April 20, 1927, was made for considerations entirely separate and distinct from any expected employment by Dilling & Company, and that when he so resigned and took the employment from Dilling & Company, as above stated, he could not have foretold or expected that he would be reappointed to the Board of Public Works in December of 1927.

### III

(1) As above stated in division II, the Board of Public Works on February 2, 1927, adopted Declaratory Resolution 13,258 in which it proposed to appropriate the lands, among others, then owned by Dilling & Company and by Granite Sand & Gravel Company, et al. The Indianapolis Real Estate Board, on a certificate signed by L. H. Lewis President and Lawrence J. Sexton Secretary under date of March 25, 1927, appraised the property to be taken consisting of approximately fourteen (14) acres then owned by Dilling & Company at Fifty-five Thousand Five Hundred Fifty Dollars (\$55,550.00), and the property proposed to be taken from Granite Sand & Gravel Company, et al., consisting of approximately fifty (50) acres, about one-fourth of which was land under water, at Sixty-one Thousand Seven Hundred Eighty-seven Dollars and Seventy-five Cents (\$61,787.75). This appraisal was signed by members of the appraisal Board of the Indianapolis Real Estate Board as follows:

D. A. Coulter  
Edson T. Wood,  
George T. Whelden,  
Frank E. Gates,  
James S. Cruse,  
Z. B. Hunt,  
Chester W. Henry and  
William L. Elder.

It was testified that Mr. Coulter was placed upon said appraisal committee at the request of Mr. Shaneberger, of the Board of Works, in order that the City might have a representative on such appraisal committee.

On June 28, 1927, Dilling & Company, after having unsuccessfully remonstrated against an award of damages based upon the above appraisal of \$55,550.00, took its appeal to Room 1 of the Marion Superior Court. The testimony showed that Boyd W. Templeton, one of the regular appraisal committee of the Real Estate Board, refused to join in the appraisal of March 25, 1927, having at the time made a separate appraisal of the Dilling & Company land at One Hundred Six Thousand One Hundred Thirty-six Dollars (\$106,136.00). The testimony showed that preliminary to negotiations by the John W. Holtzman Corporation Counsel with Mr. Walker and Mr. Hack for a compromise settlement of Dilling & Company's claim, the Corporation Counsel asked Mr. Coulter to re-check the Dilling & Company appraisal, after which Mr. Coulter revised his appraisal, increasing it from \$55,550.00 to \$100,478.00, and secured a re-appraisal by Z. B. Hunt increasing his appraisal to \$100,478.00; secured the same increase of appraisal from Edson T. Wood, and filed with the Corporation Counsel the appraisal of Boyd W. Templeton of \$106,136.00. In Mr. Holtzman's brief, he admits having requested Mr. Coulter to have the real estate board appraisements increased. The testimony shows that attempts to secure re-appraisals for this property were not made to George T. Whelden, Frank E. Gates, James S. Cruse, Chester W. Henry or William L. Elder, the other members of the Real Estate Board appraisal committee. Mr. Coulter testified that so far as he was concerned, the original appraisal made by the Real Estate Board was for trading purposes and that he then regarded the property as of greater value. Mr. Z. B. Hunt testified that he increased his appraisal at the request of Mr. Coulter, but that he now believes that the former appraisal was "about right."

On December 7, 1927, judgment was entered for \$100,000.00, upon the following finding:

**"It appearing to the Court that all the parties, by agreement, in lieu of the submission of oral testimony, have filed, with this Court, to be considered by the Court as the only testimony to be submitted in this cause, the following verified appraisements, by reputable and disinterested men, experienced in the real estate business, and particularly the real estate of the character sought to be condemned, as follows:**

**"The verified appraisal of James Berry of \$159,500.00; William T. Rasmussen of 159,400.00; Alfred M. Moore of \$146,400.00; H. C. Huffstetter of \$146,000.00; of Harry O. Garman of \$145,000.00; of Joseph J. Schmidt of \$140,000.00; of Edson T. Wood of \$100,478.00; of Z. B. Hunt, \$100,478.00; of D. A. Coulter of \$100,478.00; of Boyd W. Templeton of \$106,136.00."**

The assessment roll was changed accordingly and award made to Dilling & Company for \$100,000.00, which has been subsequently paid from the proceeds of a bond issue authorized by the Council therefor.

Mr. John W. Holtzman, as Corporation Counsel, had authority as such, in his sound judgment, to compromise the case and to agree with counsel for Dilling & Company upon an amount which in his judgment

should be awarded Dilling & Company and made a part of the judgment of the court.

Subsequent investigation shows that the foregoing property for which Dilling & Company was awarded \$6,900.00 per acre has since 1922 been on the tax duplicate at approximately \$2,800.00 per acre.

(2) **The Granite Sand & Gravel Company Award.**

On June 29, 1927, the Granite Sand & Gravel Company took its appeal from the final assessment roll theretofore approved by the Board, in which it was awarded damages in the amount of \$61,787.75, which amount was the exact amount of the appraisal by the Real Estate Board. Mr. Merle N. A. Walker represented the remonstrant and the appellant.

Early attempts at negotiations for settlement were not successful and the case proceeded to trial, in which over thirty (30) witnesses testified.

This property was purchased by Granite Sand and Gravel Company under contract in July, 1924, for Four Hundred Fifty Dollars (\$450.00) per acre. A great deal of the fifty acres taken is directly in the river bed itself, the major part of the whole tract taken being overflow land. Test holes were driven both by plaintiff and the City to determine the value of gravel deposits, and the testimony varied as to the uniformity, value and purity of the deposits. A number of witnesses produced by the plaintiff testified that the ground was worth \$9,946.00 per acre, based upon the valuation per cubic yard of the gravel deposits. It was shown that by reason of the proximity of the Belt Railroad and the location of the property with respect to the City of Indianapolis, the gravel had greater value than similar gravel deposits not so situated. The valuations were put upon the fifty acres by witnesses as follows:

Mr. Huffstetter .....	\$420,000.00	
Mr. Rasmussen .....	435,450.00	
Mr. Moore .....	543,062.52	
Mr. Garman, approximately .....	500,000.00	
Mr. Joe Schmidt, approximately .....	500,000.00	
Mr. J. E. Berry, approximately .....	500,000.00	
Mr. S. H. Montgomery, the Inheritance Tax Appraiser, \$500.00 per acre, aggregating .....	25,000.00	
Mr. McCloskey, \$500.00 per acre, aggregating .....	25,000.00	
Mr. Boyd W. Templeton \$1,300.00 per acre, aggregating .....	65,000.00	
David A. Coulter, \$1,742.00 per acre, aggregating .....	87,100.00	
Lemon H. Trotter \$600.00 to \$700.00 acre, aggregating .....	30,000.00	to 35,000.00
Obie J. Smith, \$1,000.00 to \$1,500 per acre, aggregating .....	50,000.00	to 75,000.00
William C. Smith, \$1,800 per acre, aggregating .....	90,000.00	

H. C. Tuttle, \$1,200.00 to \$1,500.0 per acre, aggregating -----	60,000.00 to 75,000.00
Mr. Cooper, \$3,000.00 per acre, ag- gregating -----	150,000.00
Mr. Radcliffe, Engineer of Indiana- polis Union Railway Company, not more than \$2,000.00 per acre, aggregating -----	100,000.00

The high valuations shown by the foregoing witnesses were based upon mathematical computations and estimates as to the amount and value of the gravel deposits under the land. **Investigation by the Committee shows that this land since 1922 has been assessed for taxation at \$400.00 per acre, an apparently low assessment in view of the sworn testimony of the owners of the land.**

**Note:** The foregoing witnesses Garman, Huffstetter, and Rasmussen had been appointed as appraisers on flood prevention work by the Board of Public Works on October 14, 1927, and when they made the appraisalment shown both in the Dilling case and the Granite Sand & Gravel Company case they were employed therefor by the City, and each was afterwards paid the sum of \$500.00 for services in the Dilling and Granite Sand & Gravel Company cases. Mr. Coulter was also paid \$500.00 by the City for his services in said two cases, and the Indianapolis Real Estate Board was paid \$278.00 for the original appraisements which were made the basis of the assessment roll.

After the aforesaid trial both parties filed briefs with the Court, and the testimony showed that the court made suggestions to counsel that they ought to get together on a basis for an award. Thereafter, judgment was entered as of the 30th day of June, 1928, awarding the sum of Two Hundred Twenty-five Thousand Dollars (\$225,000.00) to the Granite Sand & Gravel Company for the taking of said approximately fifty acres of land, and the assessment roll was amended accordingly. The foregoing judgment shows that it was taken "by way of compromise and agreement and consent of the parties." Afterward, the Granite Sand & Gravel Company was allowed interest in the amount of approximately Thirteen Thousand Dollars (\$13,000.00), making the cost to the city of said fifty acres approximately \$238,000.00.

As in the Dilling case, the Corporation Counsel possessed full authority to agree for the City upon such award and have it made in the form of a judgment of the court amending the assessment roll.

In neither the Dilling case nor the Granite Sand & Gravel Company case is there any evidence tending to indicate any collusion, dishonesty or fraud. The soundness of the judgment of the Corporation Counsel in consenting to such awards as made in the Dilling case and the Granite Sand & Gravel Company case could be the only possible subject of question.

This Committee calls attention to the fact that when the foregoing judgments were presented to the Common Council with request for authority for an issue of bonds with which to pay said judgments, there was serious question as to the amount of the awards, but both had

been reduced to judgment and there was nothing for the Council to do but to provide means for payment thereof.

This Committee has for the most part set out in this report a plain statement of the facts as they were disclosed by the evidence and records, without expressing its own conclusions, which are left for the Council itself. The Committee desires to express its appreciation of the ready and willing assistance as to the facts of all the persons called before it. It would not seek to discourage the scrutiny of all the acts of public officials. Such scrutiny ought to be encouraged. On the other hand, criticism given wide publicity should be made only after careful investigation, and the holding of office by men devoted to the public good should not be discouraged or made uncomfortable by vexatious or unfounded criticism.

Respectfully submitted.

HERMAN P. LIEBER,

*To the Special Investigation Committee of the Indianapolis  
Common Council:*

The committee to which was referred the inventory of equipment in the various city departments has made an investigation of the lists of property turned over to it, and are hereby submitting the following report:

While the schedules in our hands substantially cover all the equipment owned by the city in the departments involved in this investigation, it was decided by the committee that it was intended that only that purchased in 1928 and 1929 should be taken into consideration for the purposes of this hearing. Under this decision the committee made a careful check of all such equipment, the park and sanitary departments not being taken into account as not coming under Council supervision, except as to annual appropriations and tax levies.

There were approximately 115 pieces of equipment bought in the years 1928 and 1929 (10 months in 1929), including automobiles and trucks of various kinds, with various types of street repair and street cleaning apparatus. We find that all of this equipment was properly acquired by authority of the annual budget appropriations, with legal Council approval of purchases above \$2,000. A part of such equipment for street repairs and street cleaning purposes was bought out of the gasoline tax fund, for which authority was given by ordinance, under sanction of the legal department, and copies of such ordinances have been made a part of the record.

An investigation of the prices paid for this equipment, bought through the purchasing department, shows an approximate net expenditure of \$104,144, divided as follows, odd cents not taken into account in any of the footings:

Street Commissioners—1928—Gross .....	\$ 29,542.00	
Street Commissioner—1929—Gross .....	33,414.00	
Total .....	\$ 62,956.00	
Trade in credit .....	4,550.00	
Net cost .....		\$ 58,406.00
Municipal Garage—1928 and 1929 .....	\$ 3,419.00	
Trade in credit .....	734.00	
Net cost .....		\$ 2,685.00
Municipal Airport—1929 .....	\$ 2,313.00	
Discount .....	181.00	
Net cost .....		\$ 2,132.00
City Plan—1928 and 1929 .....	\$ 1,410.00	\$ 1,410.00
City Engineer—1928 and 1929 .....	\$ 9,368.00	
Trade in and discount .....	1,091.00	
Net cost .....		\$ 8,277.00
Police Department—1928 and 1929 .....	\$ 16,077.00	
Trade in and discount .....	819.00	
Net cost .....		\$ 15,258.00
Fire Department—1928 and 1929 (including Gamewell) .....	\$ 17,262.00	
Trade in and discount .....	1,286.00	
Net cost .....		\$ 15,976.00
Total .....		\$104,144.00
Health Department—1928 and 1929 .....	(Not Checked Up)	
SUMMARY—Total gross cost .....	\$112,805.00	
Trade in and discount credits .....	8,661.00	
Net cost .....		\$104,144.00

It does not appear that there is any warrant to the conclusion that purchases have been made in wholesale lots or outside of the regular channels, except as to the LaSalle automobile involved in this investigation. The records show that the net cost to the city has been materially reduced by the liberal trade in credits secured by the department for old equipment, usually being very much more than the appraised price, or those stipulated in ordinances authorizing the purchase. The committee submits that this is to the credit of the department.

The committee finds that each department is supplied with high-powered, high-priced automobiles, in some instances with several such cars, believed to be necessary under the present division of department responsibility for its own equipment, in which there can be no common use of any such equipment even though it often lies idle. Under our Federal form no plan has ever been worked out by any administration, including that of ex-Mayor Jewett, to provide a central motor department, which would probably afford the means of very considerable eco-

nomics in capital expenditures, as well as in repair costs and efficiency of operation, but until this is done little can be expected, in our opinion, to remedy the present situation.

Regarding the charge that the clerk of the Board of Public Works has been given the use of a car, we find that this has been done under an order by the board, the said clerk having been required to make a number of investigations for the board that had formerly been made by the engineering department. This situation came about, the committee is informed, by a consolidation of certain work by the city engineer, in which four gangs of men were reduced to three, leaving out of use one of the cars formerly used, and this car was assigned to the clerk of the board and is not one bought for the purpose. The board believes this arrangement makes both for efficiency and economy, and the committee sees no reason for disagreement.

The charge of excessive increased costs for gasoline the committee believes is unfounded, and is generally accounted for by additional pieces of equipment made necessary for street cleaning and street repair work, some of which are heavy users of gasoline. The street cleaning department has been completely motorized within the past two years, requiring gasoline power. In this change a large number of expensive-to-keep and inefficient mules and much obsolete equipment were displaced. The old mule barns on Shelby street, a disagreeable offence to the surrounding community for many years, were renovated and remodeled for housing the new equipment, and is now a model institution for its purpose and an agreeable improvement to that part of the city.

## GENERAL ORDINANCE 100, 1929

AN ORDINANCE concerning billiard rooms, providing for the licensing of the same, providing penalties for the violation thereof, repealing all ordinances in conflict therewith, and fixing a time when the same shall take effect.

*Be It Ordained by the Common Council of the City of Indianapolis, Indiana:*

Section 1. The term "billiard" as used in this section shall mean any of the several games played on a table surrounded by an elastic ledge or cushions, with balls which are impelled by cue and shall include all forms of the game known as pool. The term "billiard room" shall mean any public place wherein the game of billiards is permitted to be played

No person, society, club, firm or corporation shall open, conduct, maintain or operate a billiard room within the City of Indianapolis, unless such persons, society, club, firm or corporation shall have been duly licensed by the City of Indianapolis for such purposes and shall have obtained a permit therefor; provided, however, that the provisions of this section shall not apply to private residences or schools, and buildings maintained for philanthropic, benevolent, or religious purposes.

Section 3. Every person, society, club, firm or corporation desiring to open or maintain a billiard room must make application to the City Controller of the City of Indianapolis for a permit therefor, which application shall be in the form prescribed herein. Said application shall be filed at least ten (10) days prior to the time of granting such license.

If the applicant be a club, society or corporation, the application shall contain a complete list of the officers of such club, society or corporation with their names and addresses, including street and number, and shall also give the state in which said club, society or organization is organized, and the names of one or more persons whom the said club, society or corporation desires to designate as its manager or managers, person or persons in charge, with their addresses. Section 6. The Controller of the City of Indianapolis by himself or through one of his deputies shall cause an investigation to be made as to the character of the applicant or applicants; of the officers of the club, society or corporation and of the person who is to be general manager of the business. The application shall be rejected if the said Controller shall find any of the persons named in the application not of good moral character or that any of said persons have previously been connected with any billiard room where the license has been revoked, or where any of the provisions with reference to billiard rooms have been violated, or if the billiard room sought to be licensed does not comply in every way with the regulations, ordinances and laws applicable thereto. If rejection of his application is made the applicant for license shall be notified in writing of the reasons for rejections and shall have the right to appeal to the mayor of the City of Indianapolis, who shall have the power, after full hearing, to confirm the rejection or order the license issued. In case of appeal the applicant shall, within ten (10) days after receiving notice of rejection, file in the controller's office in writing a notice of his intention to appeal. Said appeal shall be set for hearing by the mayor within ten (10) days after said notice is filed with the said Controller.

Section 7. December 12, 1929.

*To the Honorable President and Members of the Common  
Council of the City of Indianapolis, Indiana:*

Gentlemen:

I herewith return General Ordinance No. 98, 1929, relating to the installation and maintenance of railroad crossing danger signal devices at the intersection of 13th street and the New York, Chicago and St. Louis Railroad Company, et al.

The second section of the ordinance is so worded that it might be construed as a repeal of ordinances and parts of ordinances, not intended to be repealed. The principal object of the ordinance is stated in section 1, with which I have no objection. ?

After conferring with the legal department of the city, and with an understanding with the railroads involved in the ordinance, it is agreeable that another ordinance be prepared and introduced, which will provide for the installing of proper warning signals at the 13th street intersection, and the only thing further necessary would be to repeal that part of General Ordinance No. 102, relating to 13th street.

From an examination of the General Ordinances of the city, it is my opinion that section 652 of the Municipal Code has been partially repealed by General Ordinance No. 102, 1925. At least, those streets mentioned in General Ordinance No. 102, 1925, that are likewise referred to in section 652 of the Municipal Code are now under the regulating provisions of General Ordinance No. 102, 1925.

The proposed change relating to 13th street without a repealing section going further than is necessary to make the proposed change, will leave no doubt as to the meaning of the ordinance relating to the subject matter involved in the ordinance which I am now disapproving.

Respectfully,

L. ERT SLACK,  
Mayor.

December 16, 1929.

The following report was submitted by the Special Committee appointed by President Raub to consider details of the 1930 budget.

Indianapolis, Indiana,  
December 13, 1929.

*Hon. Edward B. Raub, President of Common Council of Indianapolis:*

Dear Sir:

In the light of knowledge gained through an intensive study given by the Common Council to the 1929 and 1930 budgets, we feel justified in making some suggestions and recommendations which we believe would be helpful in a better administration of city affairs.

#### **Cost of Street Lighting and Water**

Economies, no doubt, could be effected in this item of expense, which for the year 1930 is budgeted \$823,000.00, by a survey to determine:

- (1) If there can be reductions in the lumen power of lights.
- (2) If eliminations of duplicate lighting can be made.
- (3) If there is a proper placing of lights.
- (4) If some adjustments can be made to reduce the item of \$25,000.00 per year for excess cable charges.

It is possible that the city could gain financially through negotiations of a new contract, if the Light Company would agree to that plan. And it is possible that the city might profitably open the question with the Water Company to determine whether a reduction of the present rate is justified.

#### **Pumping Station for Riverside Park and Golf Course**

We think it would be possible for the Board of Park Commissioners to draw water for sprinkling and other purposes in Riverside Park and environs, including golf courses, directly from White River, by the installation of small pumping stations. We recommend that this matter be given some study.

#### **Police and Fire Departments**

Our examination of records of the Police and Fire Departments revealed the fact that there is a large amount of lost service, due to absences. The rule prevails in both departments of allowing full pay for time off on account of illness, no matter what length of time. A year ago, it was found that the days of absence were greatly in excess of other comparable departments, and within the subsequent period of

twelve months there has been little improvement. We urge that there be a study of the regulations of the departments in other cities on this matter, and that equitable rules be formulated which will be fair to the members of the departments, and yet curb the apparent tendency to take advantage of the present generous rules. Noticeable improvement has been made in the practice of assigning police and firemen to duties irrelevant to their employment, and still further improvement should be made until the practice is entire abolished. A noticeable increase in the number of men available for duty day by day in each department can be made by putting into practice these two suggestions.

### Parks

In adopting the 1930 budget for the Park Department it was thought that the money proposed to be expended in the development of a golf course in Dearborn Park be eliminated, but in its stead to provide money sufficient to develop landscaping and recreation facilities in this area. It would be a mistake, we believe, to spend money on the development of an additional golf course at this time. It is probable that Indianapolis has sufficient golf courses, and it is certainly true that the development of general park areas will be of wider public benefit.

It is our belief that greater benefit would be obtained if band concerts were arranged for central parks at stated occasions, rather than attempting to hold one concert in each park.

### Sanitation

In consideration of the budget for the Sanitary Department, it was the intention to provide sufficient funds to begin an attack upon the problem of sludge disposal at the city sewage plant. For a number of years we have disposed of sludge by pumping it into beds at the Seller's Farm area. Time necessitated for drying to enable the sludge to be used as a fertilizer is so great that it is urgent that the problem be solved by means of mechanical dehydration of sludge. A building has been constructed for a dehydration plant, but it has never been used for that purpose. We recommend that this question be studied.

The very unsatisfactory condition at the City Dog Pound, due to inadequate provision of method and equipment to care for the city's responsibility in connection with the handling the stray and outcast dogs, in our opinion should receive early attention. Methods of some other municipalities where this problem is being taken care of in a satisfactory manner should be investigated with the view of establishing for this city the right kind of Dog Pound.

### Flood Prevention Sinking Fund

The action in reducing the levy for flood prevention fund for the year 1930 was based upon the desire that a large balance amounting to about \$83,000.00, consisting of receipts from a special assessment on the benefitted area for the construction of the Kentucky avenue and Oliver street bridges, be transferred to this fund.

### Certificates of Indebtedness

There is a lack of control over the issuing of certificates of indebtedness for the payment of the city's share of street improvement costs. Since there is no limitation upon the levy for this purpose, and since the council is charged with the responsibility of adopting all ap-

appropriations and fixing all tax levies, it would seem proper that the council should have some control over this item of the levy. If possible, an attempt should be made each year to budget the expenditures that will require certificates of indebtedness, thus giving the council an opportunity to pass upon such a program.

#### **Budgeting of Special Funds**

Before consideration of the 1931 budget, we would urge a change of procedure that will give the council a better understanding of a number of special funds to permit of a more intelligent decision for the amounts necessary for 1931. We refer in particular to gasoline tax revenues, street resurfacing, track elevation, and thoroughfare levies. These funds are provided by appropriations in lump amounts. All should be budgeted in detail before the council is asked to pass upon them. These are the few remaining funds in the civil city financial structure not subject to a detailed budget.

#### **Municipal Airport**

Nothing was provided in the 1930 budget for maintenance cost of the municipal airport, because it is not expected to have the port in full operation during 1930. The 1931 budget should provide for the maintenance of the airport. None of the proceeds of the airport bond issue should be spent for maintenance.

#### **Annexation**

The problem of annexations to the city is one that needs careful attention. The municipality now occupies practically all of Center Township, and the policy of annexing the balance of Center Township with the exception of that part now in Beech Grove, has been considered. The city now is projected into four other townships especially Washington township, and future annexations are inevitable.

While we do not at this time recommend bringing up the question of the consolidation of city and county government, which we think is desirable, we do believe a study of the question of future annexations should be made. Annexations vitally affect all city departments, especially schools, sanitary and safety departments, and their interests must be carefully considered. Still the necessity of the city annexing further tracts is obvious, both for the benefit of the city and the property adjacent to the city limits.

#### **City Legal Services**

It has been observed in the consideration of the various departmental budgets, that the Legal Department functions only in part for the city. In some subdivisions of the city government there appear items for legal services not coming from the Legal Department, which are usually rendered by an attorney appointed by the board controlling the department affected. In our opinion, this arrangement makes neither for economy nor for efficiency. We are therefore suggesting that this situation be studied with a view of consolidating all such services in the Legal Department. If it should be found that such consolidation is not possible under existing laws, we urge that steps be taken to have the laws amended to provide such power.

#### **Miscellaneous**

The practice of paying the salary of a city employee from more than one appropriation or fund should be dispensed with.

It is probable that a considerable saving could be made in the

expenditure for coal, if a general contract for all departments of the city was awarded at one time.

We believe that a study should be made of the number and the operation of market restaurants. Their operation on off days should be considered with relation to the effect upon the business of outside establishments.

An ordinance intended to regulate prize fights in the city of Indianapolis is not being enforced because of a court injunction. There should be adequate control of prize fighting, and this matter should receive early attention.

EARL BUCHANAN,  
HERMAN P. LIEBER,  
MEREDITH NICHOLSON,  
ROBT. E. SPRINGSTEEN,  
Committee.

On motion of Mr. White, seconded by Mr. Springsteen, the Council voted to receive the report, file it with the Clerk, approve it and have it printed in the official proceedings of the Council. The Clerk was instructed so to do.

Mr. Meurer asked for suspension of the rules for consideration of Appropriation Ordinance 18, 1929. The motion to suspend rules was seconded by Mr. Springsteen, but failed to pass by the following roll-call vote:

Ayes, 6, viz: Mr. Buchanan, Mr. Meurer, Mr. Nicholson, Mr. Rathert, Mr. Springsteen, Mr. White.

Noes, 2, viz: Mr. Lieber, Pres. Raub.

On motion of Mr. Lieber, seconded by Mr. Meurer, the Common Council of the City of Indianapolis adjourned at 9:26 P. M.

We hereby certify that the above and foregoing is a full, true and complete record of the proceedings of the Common Council held Monday, December 16, 1929, at 7:30 P. M.
